PROGRAMME DETAILS

Marwari College, Ranchi is one of the Premiere autonomous colleges of Ranchi University, Ranchi having two separate sections for boys and girls established in two different premises. Enticed by the dream of spreading education, Marwari College, Ranchi was established in 1963 by the Marwari Shiksha Trust with only 170 students in all disciplines. Since then it has grown to become an ideal place of higher education and also an institution where minds and personalities of about 18,000 students are shaped and groomed to become responsible citizens.

Marwari College became Autonomous from April 2009.

Vocational Courses were started in Marwari College, Ranchi in the year 1996 with the objective of training the students in skill based and job oriented courses as per the need of the markets, along with preparing them for technology based self-employment. An effort was made to create an entirely different environment in the college than the traditional one. To day the teaching-learning environment consists of regular classroom teaching, intensive practical, seminars, workshops, field study, projects and On-Job-Training sessions. In view of the employment with industries and Government organizations etc. or self employment one of the compulsory papers in all Job Oriented courses has been devoted for entrepreneurship development, marketing and management.

Marwari College, Ranchi is particularly famous in its excellent academic atmosphere in different Job Oriented Courses as mentioned below:-

1. At DEGREE LEVEL (THREE YEAR'S HONOURS DEGREE COURSES & TWO YEAR'S POST GRADUATE COURSES) THERE ARE 10 JOB ORIENTED SUBJECTS INTRODUCED IN MARWARICOLLEGE, RANCHI.

Environment protection and controlling pollution in the face of unavoidable and challenging circumstances of developmental activities and industrialization are other concerns before Biotechnology which it is meeting with a satisfactory level of success.

In order to educate and train our youth to meet this very important demand of agriculturists, pharmaceutical and other bio process dependent industries and Environmentalists, we have made a modest beginning by introducing Master's Degree Course in Biotechnology for 24 students.
