Annexure - I

45MM PANEL BASED WORK STATION SYSTEM

P/F of Panel based Modular Workstations of 45 mm thickness with extruded aluminum Section of End Post, Top Rail and Intermediate section and Raceway Cover. The aluminum frame work is supported on lower and upper partition block. Bottom Block is made up of 6/9mm pre laminated particle board of desired shade which is pasted On 25x25mm thick particle board baton frame, which is properly screwed to end post and Bottom electrical race way. Upper block is fixed above the table top and is made up of particle battens fixed with 9 mm thick pin board and cloth of desired shade.

Optionally White Board or Glazing can Be provided instead of pin board. Raceway--one bottom raceway is provided as standard for drawing wires along the width of panel. The raceway is covered with aluminum extruded plates Of 100 mm height from both sides and snap fitted with aluminum extruded raceway clip. The modular switch & socket plates can be mounted & punched onto the raceway panels with easy cable connectivity & accessibility in case of any repairs etc.

- End Post - 45x23 mm
- Top Rail base - 45x28.5 mm
- Top Rail - 45x 13.7 mm
- Intermediate section - 45x28 mm
- Race way Cover - 100x10.3 mm
- All angled connections between panels are done with the help of 2-way, 3-way, and 4-way Joinery System.
- All connections between 2 different entities of panels are masked with Plastic caps on the top plane. All 3 way & 4 way caps would be square in shape, while all 2 way caps would be semi curved on the exposed face. The vertical aluminum sections used for linear panel connectivity are covered with rectangular double collared caps & the ending posts are covered with single collared caps.
- Inter-connectivity of the panels & connector profiles would be done with a special clip on arrangement with jointer strip at the top.
- All inter worktop joinery junctions to be supported with duly powder coated cantilevers with hook on system.
- Top rails, end posts, connectors & raceway panels are made out of aluminum duly powder coated to give smooth finish.
- All horizontal Top rail & vertical end post profiles would be elegantly curved in a convex fashion with a lengthwise running groove in the middle.
